itfaiye
arabası

yangın
söndürücü

Hergün gün
gökyüzünde
parlıyor.

Fırtına olunca,
kara
bulutlardan
çakar.

Fitilini
yakarsak,
bize ışık ve ısı
verir.

Benzin veya
gazla doludur
onunla birşeyi
tutuştururuz.

Çocuklar onu
yaparak,
sonbaharda
bir gecede
geçit yaparlar.

Eğer onun
kafası girintili
bir yüze
sürülürse,
yanar.

Onun
etrafında
oturup,
korkulu
hikayeler
anlatırız.

O geceleri
gökyüzünde
renkli, ışıklı,
patırtılı ve
gürültülü olur.

Bu binada
itfaiye
arabaları
hazır durur.

O yangın
söndürerek,
insanları
kurtarır.

İtfaiye onunla
yangın yerine
ulaşır.

O su, toz veya
köpükle
doludur ve
onunla yangın
söndürülür.
